Jonesboro Pastor Given Preliminary Hearing in Killing of Tabernacle Janitor

JONESBORO, Ark.—(AP)—The Rev. Dale C. Crowley was ordered held for grand jury action without bond at his preliminary hearing Saturday on a first degree murder charge growing out of the slaying of J. W. McMurdo, aged janitor of the Jonesboro Baptist tabernacle.

## Bobcats Run Over Lockesburg Team by Score of 33 to 0

Visitors Hold Locals to 6-0 Tally End of First Half

TEAM GETS GOING  
Hargis and Matheson Lead Scoring for Hope Eleven

Held to a 6-to-0 score at the half, Hope's Bobcat football team dealt misery in the third and fourth quarters to an invading Lockesburg eleven here Friday night, crushing the visitors by a 33 to 0 score.

Hargis and Matheson led the scoring for Hope, each making two touchdowns. Harper broke loose for a 25-yard run early in the fourth quarter for the other touchdown.

The Bobcats made 20 first downs to five for Lockesburg. Most of the entire game was played in Lockesburg territory, the visitors never threatening at any stage of the game. Only once did they penetrate the Bobcat 40-yard line.

The first quarter was scoreless, although the locals made five first downs and were within the 30-yard stripe three times, only to have the offensive falter. Elkins at left end and Tatum at center for the visitors broke through each time to halt the Bobcat ball carriers.

As the second quarter opened Hope was in possession of the ball on Lockesburg's 35-yard line. After two attempts and little gain, Matheson got loose for 10 yards on an end run. On the next play he added seven more.

Hargis, battering fullback, who played his best game of the season Friday night, found a hole in the line and carried the oval to within 10 yards of the goal. There the Bobcats were thrown for a five-yard loss. The threat ended when a pass failed in a desperate attempt to score on the fourth down.

March to Touchdown  
Lockesburg punted on the first down to Matheson. With Pete Brown cutting down two would-be tacklers by throwing his whole body into them, Matheson returned the punt beyond mid-field. The Bobcats started a march, ultimately leading to the first score. Nice plunged with Hargis again carrying the ball and a pass Brown to Matheson, placed the ball on the 15-yard line.

On the next play Brown picked up five yards on an off-tackle smash. Hargis was called upon, he drove toward the center of the line, found a hole and plunged for 10 yards and the first touchdown. A smash at the line for extra point failed.

Taking the kick off, Lockesburg registered a first down in two plays only to be stopped in mid-field when Chamberlain went through the line twice to stop Lockesburg for no gains. An exchange of punts followed. The locals took the ball. Brown tore off 10 yards and a pass Brown to Turner netted 30 yards, placing the ball on the 15-yard line. Thrusts by Cargile, Harper and Turner added eight more yards and on the fourth play a pass fell in the end zone, bringing another scoring threat to an end. The whistle ended the half with Hope in possession of the ball after Lockesburg punted.

Tommy Rea, counted upon by the visitors to do most of the ball carrying, was a marked man from the beginning of the contest. He was stopped cold at the line of scrimmage several times. Only once did Lockesburg make a first down during the second quarter and none in the first.

Another Score  
As the third quarter opened Cowboy Ken Matheson mounted his scoring horse, skirted the ends for long gains and crossed the goal line within two minutes. After adding extra point by kicking, Coach Jones jerked him from the game. Lockesburg again received up and could get no where. An exchange of punts followed and the third quarter ended with Hargis plunging for a first down, placing the ball on the 35-yard line.

Hope was finally forced to punt, kicking out on the 12-yard line. A bad Lockesburg punt gave Hope the ball on the visitors territory. Harper broke into an open field and ran 25 yards for a touchdown.

The Bobcats, taking advantage of all breaks, soon started for another touchdown. Hargis broke through the line for 25 yards, going as far as the safety man before being brought down. Two more plunges by Hargis and Hope was on the eight-yard line. From there he carried it over on a

Crowley, who had just been recognized by court order as pastor of the tabernacle when the shooting occurred last Tuesday, was brought here from Newport where he had been held for safekeeping.

The state called three witnesses at the hearing in municipal court, from which all spectators were barred. The crowds also were kept away from the building.

The defense offered no testimony. Crowley's attorneys said they would seek bond for him through a habeas corpus action.

The shooting followed a series of disturbances resulting from a pastorate dispute between Crowley and the Rev. Joe Jeffers, evangelist.

## Arkansas Cotton Close to Normal

Estimated 1933 Yield Only a Little Below 1932 and 1928-32 Average

LITTLE ROCK.—(AP)—The October cotton crop report of the United States department of agriculture reduced the estimate for Arkansas only 2,000 bales below the September forecast, with an indicated production of 1,771,000 bales the latest estimate.

In a supplemental report Saturday, C. S. Bouton, federal-state crop statistician for Arkansas, said the crop prospects in the northeastern and north central sections of the state decreased slightly during September, but better prospects were reported from other sections.

The latest estimate of Arkansas production this year is 152,000 bales below the 1932 crop, and 183,000 bales less than the 1928-1932 average of 1,350,000 bales.

The indicated yield of 210 pounds per acre for the state, Mr. Bouton said, compares with 188 pounds in 1932 and 276 pounds in 1931. The average yield for the period 1922-1931 is 188 pounds.

The forecast of 12,885,000 bales for the United States as a whole is an increase of 471,000 bales above the September forecast. Most of the increases were shown in all major cotton producing states except Arkansas, Mississippi and Louisiana. The forecast for Texas was for 4,190,000 bales, or 375,000 more than the September estimate.

## Roads Are Built by CCC Workers

2½ Miles Completed in Hot Springs National Park Camp

WASHINGTON.—(AP)—Construction of trails and roads and improvement of the gorge camp grounds were the principal activities of the Civilian Conservation Corps camp at Hot Springs National Park reported to the national park service by A. F. Annen, superintendent of the camp.

The men in the camp have completed 2½ miles of trails on Hot Springs mountains, the superintendent said, and have cleared 1,300 feet and built culverts for a new roadway to the gorge camp grounds.

Dirt excavated from three pits was hauled to the gorge for filling, and additional soil for filling was obtained from grading the new roadway. The fills were then covered with a layer of top soil.

The camp also completed the construction of concrete supports for the walls of Whitting Park creek, and cleaned and straightened the creek bed through its entire length.

### Hitler Appeals to Electorate; Sets Date on Nov. 12th

The Reich Leaves Arms Conference, Precipitating World Crisis

U. S. A. IS ALARMED

State Department Calls Conference, Will Report to Roosevelt

BERLIN, Germany.—(AP)—By one of the boldest strokes of official action taken since his assumption of power, Chancellor Adolf Hitler Saturday served notice on the League of Nations that Germany will withdraw two years hence, and served notice on the disarmament conference that the Reich no longer finds it possible to continue its attendance there.

To demonstrate to the world that all Germany stands behind the chancellor's foreign policy, President von Hindenburg ordered the dissolution of the Reichstag and all state parliaments, and set the new Reichstag elections for November 12.

The Reichstag balloting is to be so conducted that a vote for Nazi members will mean endorsement of the government's course.

Startles World

WASHINGTON.—(AP)—Germany's notice of withdrawal from the disarmament conference and the League of Nations sent reverberations through official and diplomatic Washington Saturday, one immediate result being a hurried conference of State Department chiefs.

Secretary Hull later expected to lay a detailed report before President Roosevelt.

Later in the day Secretary Hull said that Germany's notice of withdrawal from the arms conference and the League of Nations impedes the whole movement for disarmament.

"Grave News," Says France

PARIS, France.—(AP)—A French spokesman Saturday characterized the announcement of Germany's intention to withdraw from the League of Nations and the disarmament conference as "the gravest news in 20 years."

## State Monopoly For Liquor Is Advocated

Rockefeller Investigators Set Forth Proposed American Liquor Authority Plan

There is made public today a portion of the results, shortly to be published, of a study, sponsored by John D. Rockefeller, Jr., of the problems of liquor control. The study was conducted by Raymond B. Fosdick and Albert L. Scott. The portion made public today, setting forth a proposed American liquor authority plan, follows:

It is the purpose of this chapter to present a concrete plan for a state liquor monopoly applicable to American conditions, embodying ideas drawn from the best plans in operation; to compare this plan with the license system as a means of control; and to present our conclusions and recommendations.

By a state liquor monopoly we mean, in its simplest terms, a system by which the state government takes over, as a public monopoly, the retail sale, through its own stores, of the heavier alcoholic beverages for off-premises consumption.

Foreign experience and our own analysis of the problem here and abroad indicate that such a system makes it possible adequately to meet an unstimulated demand within the limits of conditions established solely in the interests of society.

The state board in charge of such a system might properly be called the "State Alcohol Control Authority." We shall speak of this board as the Authority. The tasks and appropriate

Walter Townsend Seriously Burned in Asphalt Explosion

PRESCOTT, Ark.—Walter Townsend, employee of the Berry Asphalt company, was seriously burned about the face and hands Friday at the refinery at Waterloo when a broken gasket caused the hot asphalt to be thrown over his face and hands and other parts of his body. The asphalt splattered over his hands and lower arms and over both legs.

Townsend was brought here to Cora Donnell hospital immediately after the accident where he is receiving treatment. Although the injuries are very painful and will cause Mr. Townsend to be confined for several days, it is not believed any of them will be permanent.

## Prisoner in Fraud May Be Claimed by Federal Agent

"Howard Adams" Identified as A. Panco, Dallas and Hot Springs

HAD \$600 ON HIM

Oklahoma City Department of Justice Agent Coming Here

Andrew Panco, alias Howard Adams, arrested here with a number of stolen travelers' checks and for an attempted bank fraud, was whisked away Friday night to an unannounced jail as a precaution against his associates who officers feared might attempt to "take" him.

A federal Department of Justice agent was en route to Hope Saturday to trace the stolen travelers' checks to a recent North Arkansas bank robbery.

Panco, held in the city jail Friday afternoon, remained sullen and defied officers as they sought to learn of his past record. In their third attempt to search him in a jail cell, officers were forced to swing clubs when Panco put up a resistance. He was struck over the head twice before being subdued.

Officers found more than \$600 in cash, mostly in \$20 bills, and more than \$100 in travelers' checks, concealed in his clothing.

A Tough Prisoner

Termed as "the toughest prisoner I ever got hold of" Chief of Police Clarence Baker, removed Panco to a local doctor's office to have his head wounds cared for. Let into the office with the wounds bleeding, Panco snarled, "Just wash the blood off—I've been beaten up before."

Panco's identity was learned by officers from 8-year-old Helen Mayhew, who gave her address at 509 South Spruce street, Texarkana.

The girl questioned more than an hour Friday afternoon when found sitting alone in a parked automobile, after Panco had been arrested. She told officers Panco married her sister and that he formerly lived in Dallas, but only recently moved to Hot Springs. She said Panco had been visiting with her relatives in Texarkana, and that she was riding with him to Hot Springs.

She also told officers that they came to Hope alone from Texarkana, disavowing the theory that another automobile with companions of Panco accompanied him here.

Deputy Sheriff Tom Fisher of Texarkana came here late Friday and returned the girl to her home there.

Losses Made Good

A checkup at the First National bank late Friday showed that two travelers' checks, totaling \$20, termed as "hot" money, had been taken in. It was believed that Panco first successfully cashed the two at First National bank, then at the Citizens bank where Ched Hall, assistant cashier, discovered the checks were listed as "stolen." The First National's loss was made good, officers said.

Chief of Police Clarence Baker said Saturday that Harley Service Station at Texarkana had notified him that they had received some of the checks, believed to have been passed upon them by Panco.

Panco's arrest followed his attempt at Citizens National Bank to cash \$20 worth of the checks.

When Assistant Cashier Hall refused to cash the checks and threat-

County Citizen Succumbs at Home in Providence

Mrs. Maggie Bateman, a resident of Providence community, five miles northwest of Hope for 18 years, died at her home at 10 o'clock Friday night at the age of 52. Mrs. Bateman had been in ill health for a number of months.

Funeral and burial services were held at Rocky Mount at 2 o'clock Saturday afternoon, conducted by Rev. Wallace R. Rogers, pastor of Hope First Baptist church.

She is survived by her husband, five sons, three daughters, one brother and her mother.

Born in Indiana, she came to Hempstead county with her husband 18 years ago, settling in the Providence community.

## Hike in Insurance Is Laid to Panic Losses

Roy Anderson Reviews Underwriting Records for Kiwanis as Feature of Fire Prevention Week

"Recent increases in fire insurance rates throughout Arkansas have brought special interest to 'Fire Prevention Week' this year," Roy Anderson, local fire insurance agent, told the Kiwanis Club at its Friday night meeting.

"Although fire insurance companies are permitted to earn 5 per cent profit on their volume, they have shown large losses in every classification for the past five years, he said. They are permitted to charge rates which will bring them a profit.

"Hope's fire rates are higher than some other Arkansas cities because of lack of a building code which would compel construction of fire-walls far partitions in business buildings, and especially because of inadequate water lines, or entire lack of them in some sections," Mr. Anderson told the Kiwanians.

"No building is any safer than neighboring ones which expose it to fire, or than the contents which may be stored," he said. "Most all fires are preventable, carelessness being the greatest cause."

To show that most fires are preventable, Mr. Anderson gave figures of per capita losses. Throughout the United States the per capita fire loss was \$4.75 in 1932. During the month of December that year Hope's per capita loss was around \$18.00 per capita due to a large fire on East Second street. A city ordinance has since been passed which prohibits the storage of cotton in the business district. This would have prevented that large fire," he said.

For the past six years fire underwriters have collected over nine millions in premiums for dwelling risks in Arkansas. Total losses and expenses paid during that time was 11½ million dollars, for a loss of almost 2½ millions. The recently increased rates are to correct this condition, Mr. Anderson said.

Ira Halliburton had charge of the program Friday.

Delegates to the tri-state district of Kiwanis leave for the annual convention at Hutchinson, Kansas, Sunday morning. They are, the Rev. Geo. F. X. Strassner, John P. Cox, Oliver Williams, and Sid Bundy.

## Italian Bluebeard Is Put to Death

Cesare Serviatti Murdered Three Women for Their Money

SPEZIA, Italy.—(AP)—A volley of bullets in the back Friday ended 47-year-old Cesare Serviatti's gruesome career as Italy's modern "Bluebeard."

He was convicted and sentenced in the Court of Assizes on 11 counts of murder, all connected with the mysterious disappearance and subsequent confirmed deaths of three young women who had given him their affections and life savings.

One of his victims was Beatrice Marguerite, formerly of 101 Franklin avenue, Long Branch, N. J. He made matrimonial advances to her shortly after she arrived in Italy. After obtaining the savings she had accumulated during many years as a domestic, he murdered her October 30, 1930. Her body was cut in pieces and thrown into the River Tiber at Rome. Some of the grisly relics were recovered by police.

Pasqua Bartolini was killed and disposed of in the same way.

The debacle in Serviatti's bloody career came when he deviated from the river system of disposal. Italy was aroused last November with the finding in railway stations of suitcases containing portions of a woman's body. Two of the suitcases were found at Naples, one at Rome. Contents of the suitcases were identified as portions of the body of Pauline Goriatti. Authorities learned she had a sweetheart called Serviatti in Spezia. "Bluebeard" was arrested promptly and confessed. He said he killed Paulina to death during a lover's quarrel. Prosecutors, however, established the pilfering motive of Serviatti's crime.

## Financial Problem for This Year Is Finally Ironed Out

U. S. Aid Given Lower Grades—City Aid to High School

NEW SCHOOL LINES

Rural Grade School Students Will Use Oglesby Building

Hope's elementary schools, both white and negro, will open the school year Monday morning, an announcement from Miss Beryl Henry, city superintendent, and the school board, said at noon Saturday.

The public school system began organization work Monday, October 2, but abandoned classes until the financial crisis could be solved by the school board.

The senior and junior high schools began tentative class-work last Monday, October 9, and with the opening of the lower grades this coming Monday the entire system will be functioning.

Aid Given Two Ways

Federal aid saved the lower grades, while a \$15,000 grant by the Hope city council saved the city's free high school. Without this grant the high school would have had to operate as a tuition school, eliminating an important percentage of the students. As it is, a free school will be maintained for all.

School authorities said Saturday they believed they could pull all the local institutions through this school year on the city's \$15,000 grant. A detailed financial statement on the public school situation will be issued probably next week after operations have begun.

Regarding plans for next year, school officials believe if the people will pay up part of their back taxes the schools can be pulled through a year from now, even with present reduced assessments. It was the accumulation of delinquent taxes, as well as the decline in assessed valuations, which put the schools two years behind their revenues instead of only one year, as formerly.

School Statement

The school board's statement, issued by Miss Henry Saturday, follows: "The white and colored elementary schools of Hope Special School District will re-open Monday morning.

"Because of federal aid extended to unemployed teachers of rural children, the lines for the various schools have been re-placed to meet these changing conditions.

"The dividing line for Brookwood and Paisley Schools is Main Street, throughout the city limits. Patrons of the first six grades living on both sides of, and east of, Main Street inside the city limits will use Brookwood. Patrons of the first six grades living west of Main Street inside the city limits will use Paisley school.

"Patrons of the first eight grades living outside the city limits and within the Hope Special School District will use Oglesby School.

"We are asking that all first grade children who will be 6 years old by January 1st be entered the first two weeks of school, since the mid-year promotion plan will be discontinued as far as possible.

"This entire arrangement is of meet the situation this year only, and with the continued spirit of co-operation and generosity of the citizens this can be effected satisfactorily.

"The staff personnel of teachers is as follows:

## BEHIND THE SCENES IN Washington

**NRA Favored as Referee, Rather Than  
as Role of Dictator . . . But It May

Under Fire . . . First Lady Starts  
Early on Christmas Shopping.**

This column, "The New Deal in  
Washington," is being conducted  
by Willis Thornton during the vaca-  
tion of Rodney Dutcher.

**BY WILLIS THORNTON**  
**NEA Washington Correspondent**  
WASHINGTON—You don't often  
hear the NA spoken of as America's  
Two-Year Plan, but that's what it  
really amounts to.

As the NA crystallizes into the per-  
manent organization that will carry on  
for the two years of its present legal  
tenure (and as the idea becomes ac-  
cepted more generally) it will go on  
and on and on, two courses of  
development are open:

One is the more or less complete  
socialization of industry under the  
complete control of this federal bu-  
reaucracy.

The other is to make the NRA a ref-  
eree in the battle of competitive in-  
dustry, the maker of the rules, and  
the referee of the battle, who is to  
prevent biting, gouging and hitting in  
the clinches.

Right now it looks as though the  
latter view is prevailing. Industry is  
being organized so that each may ad-  
minister its own code. Establishment  
of "compliance boards" is to help in  
that. And how much nicer "compliance  
boards" sounds than "enforcement  
boards!"

Two years of this plan ought to  
show whether industry is willing to  
"fight fair," and whether the gains in  
eliminating child labor, unfair com-  
petition and sweatshops, will be  
enough. If not, the next Two-Year  
Plan may be more like that first al-  
ternative—and the machinery will be  
ready.

**Securities Act at Issue**  
The federal advisory council to the  
Federal reserve board, which is an ad-  
visory body not necessarily reflecting  
the view of the board itself, has rec-  
ommended amendment of the federal  
Securities Act and the Glass-Steag-  
all bill, saying, "the normal issue of  
corporate securities by responsible  
corporations almost has ceased," adding  
that refunding operations by old  
companies apparently have been halted.

Friends of the securities bill say  
that the state of the capital market,  
not the restrictions of the act, have  
prevented normal refunding.

The best answer to some objections  
that the new securities law is too  
strict, they say, lies in the fact that  
more than a quarter billion dollars'  
worth of new securities have been reg-  
istered since the act went into effect.

Mining, distilling, oil and invest-  
ment companies make up the bulk of  
the new ventures.

**First Lady Shops Early**  
Friends report that Mrs. Franklin  
D. Roosevelt spent some of her time  
in New York recently in starting to  
do her Christmas Shopping Early.

Postmaster of Alexandria, Just  
outside Washington, got a money or-  
der for \$1 the other day . . . it was  
from one of the Bonus Army of 1932  
whom he had helped at that time . . .  
came from a Conservation Camp in  
California . . . When Mrs. Isabella  
Greenway, Roosevelt friend, comes  
back to Washington this winter as a  
congresswoman, she will have a unique  
distinction: a statue of her late hus-  
band, John Greenway, stands in Sta-  
tuary Hall at the Capitol as one of  
Arizona's most distinguished sons . . .

But forgotten all about the George  
Washington Bi-Centennial of last year,  
hadn't you? . . . even the paper  
matches are nearly all by now  
. . . but Rep. Sol Bloom, chairman,  
has spent all this summer cleaning  
up final reports and supervising pub-  
lications relating to it . . . The annex  
to the Library of Congress, planned  
for several years, now becomes possi-  
ble under a public works allotment  
of \$2,500,000 . . . it will occupy more  
than a whole block, and will have  
room for more than 10,000,000 volumes  
. . . tunnel will connect it with the  
main library across the street.

Have Seized**

LITTLE ROCK.—(P)—The county  
judges of Arkansas Saturday filed an  
intervention in federal court asking  
that \$305,000 of "turnback" funds  
which were impounded for the benefit  
of direct state bondholders be re-  
leased from the state treasury to the  
county governments.

Three weeks ago U. S. Judge Mar-  
tineau granted a petition of Eastern  
bondholders for an order restraining  
State Treasurer Leonard from disbur-  
sing highway funds except for the  
maintenance of roads or for interest  
and principal if appropriated for di-  
rect state highway bonds.

The restraining order included the  
"turnback" for the counties, but the  
county judges' intervention contend-  
ed that the extra one-cent gasoline  
tax was not levied for bond purposes  
and was wholly the property of the  
counties.

The \$305,000 is the amount now in  
the treasury which would have been  
prorated to the counties October 1.

refunding matter is satisfactorily  
worked out by Governor Futrell's  
committee and representatives of  
bondholders.

Governor Futrell, in a recent talk  
with newspapermen in which several  
subjects were covered, indicated no  
emergency other than the refunding  
matter had arisen to require an ex-  
traordinary session.

As to the refunding of the \$146,000,  
60 of highway indebtedness, he be-  
lieved that the state could make a  
compromise with the bondholders-re-  
presentatives can reach an agreement  
and receive approval of it from those  
who must in the end be satisfied.

Governor Futrell hopes to solve the  
refunding problem, and has privately  
given orders down the line for all  
agencies of the state to aid the re-  
funding committee in assembling  
needed data, and in other ways.

It is regarded as likely that no ser-  
ious efforts toward a compromise can  
be made until the suit filed by direct  
state bondholders to impound high-  
way revenues is heard by a three-  
judge federal court here October 30.

After that, however, some legal ques-  
tions may be determined which will  
afford a basis for an agreement.

Those closest to the administration  
and the refunding matter look for a  
special session about next March or  
April.

**Couch Got a Loan  
From Dillon-Read**

WASHINGTON.—(P)—In closing the  
Senate committee received evidence  
that a loan of \$300,000 had been made  
to Harvey C. Couch, Arkansas capi-  
talist, before he became a director of  
the Reconstruction Corporation, and  
that apparently it remains un-  
paid.

Couch's name was brought into the  
committee's record by Pecora in pre-  
sents a mass of statistical data, deal-  
ing with the banking, stock and bond  
operations of Dillon, Read and asso-  
ciates, along with customers in stock  
pool accounts.

The record showed Couch was loaned  
\$300,000 on January 16, 1928, and  
that it was listed as unpaid up to  
December 31, 1931. Committee inves-  
tigators said they understood it was  
still unpaid when Dillon, Read an-  
swered a questionnaire from the com-  
mittee this summer.

The questionnaire data spread on  
the record and also associated that Mr.  
Couch and unnamed associates par-  
ticipated to the extent of 35 per cent  
in a so-called "pool" of  
account formed October 8, 1927,  
to deal in securities of the Louisiana  
and Arkansas railway, of which Mr.  
Couch is president. Dillon, Read and  
Company had a 30 per cent participa-  
tion in this transaction, one-third of  
which was later reallocated to Seligman  
and Company. The other partici-  
pants in this so-called "pool" were  
F. G. Pack, Charles C. McCain, Cover-  
dale and Colpitts, J. A. Moffett, and  
Rogers Caldwell. Mr. Caldwell with-  
drew from the account on June 8, 1931.

The Patmos Baptist church will hold  
a meeting Saturday afternoon, Octo-  
ber 14, to reorganize the ladies' auxil-  
iary. All members are urged to at-  
tend, with an invitation to members  
of other denominations to be present.

Will not for precious chances passed away!  
Weep not for golden ages on the wane!  
Each night we burn the records of the day—  
At sunrise every soul is born again!  
Laugh like a boy at splendors that have sped,  
To vanished joys be blind and deaf and dumb;  
Ours judgments seal the dead past with its dead,  
But never bind a moment yet to come.  
Though deep in mire, wring not your hands and weep;  
We lend our arm to all who say "I can!"  
No shame-faced outcast ever sank so deep  
But yet might rise and be again a man!—Selected. By special request.

## Magnolia A. & M. Meets Texarkana Junior College Team on Friday

MAGNOLIA, Ark.—Although Coach Sage McLean only has six of his last year's fighting Muleriders back this year to go into action, he expects to have his "rookies" whipped in shape by the time he has to go against the Bull Dogs of Texarkana Junior College. For the past two years the Bull Dogs have been a victorious success against the Muleriders, but according to Coach McLean, the game that is to be fought on Smith Field Friday, at Magnolia, will be a hard fought game, even though he does have some weaknesses to overcome.

The following men were members of the squad last year: Ben and Will Curtis, captain and sub-captain, both of Marianna; Maurice Gaston, Sparkman; Billy Parker, Haynesville, La.; Richard Fincher, Waldo; and Elmo Bellamy, Smithville.

New men who are showing up well are: Mark Parker and Marion Sale, Haynesville, La.; Dillard, Breeding, Hope; Kenneth Vines, El Dorado; Percy Sanders, Stephens, George Freeman, Poughkeepsie; Bo McAlister, McNeil; and Homer King, Ruston, La.

## Airship Macon Is Flying to Pacific

### Great Dirigible to Pass Over Shreveport Some Time Friday

By the Associated Press

The Navy dirigible Macon is flying through Southern skies Friday enroute to her permanent base in California. The huge airship left the naval air station at Lakehurst, N. J., at dusk Thursday night and was reported over Raleigh, N. C., shortly after midnight.

Following a southern route the Macon is expected to complete the 3,000 mile journey to Moffett field, near San Francisco, early Sunday morning.

The Macon is scheduled to pass over Macon, Ga.; Atlanta, Ga.; Montgomery, Ala.; Jacksonville, Miss.; Shreveport, La.; Fort Worth, Tex.; Abilene, Tex.; Pecos, Tex.; El Paso, Tex.; Phoenix, Ariz.; Yuma, Ariz.; San Diego, Cal.; Monterey and Mountain View.

The ship is fueled for a cruising range of 100 hours. She carries but one of her five auxiliary planes. The others will be shipped overland to the coast.

The future of Lakehurst as a naval air base is doubtful. The Macon's sister ship, the Akron, was to have been stationed here but the Akron was lost in a Port Wiff the Jersey coast April 3 and all but three of her crew perished.

Of all the mighty dirigibles which have made their home in Lakehurst only one, the old Los Angeles, now remains. But the Los Angeles is out of commission, dismantled. Lieut. Commander Edwin Cochrane, acting commander at the station, will go to Washington to propose recommissioning the Los Angeles as a training ship.

## Fordyce Continues Championship Play

### Redbugs Smash Warren 45 to 0 for Fifth Victory

FORDYCE, Ark.—The Fordyce High School Redbugs won their fifth game of the season Friday by defeating the Warren High School Lumberjacks, 45 to 0.

The Redbugs pushed over a touchdown early in the first quarter when Benton took a 25-yard pass and Wood plunked eight yards for the counter. Frank Mossley kicked the extra point.

L. R. Defeat Van Buren

LITTLE ROCK.—Outwitting their opponents many pounds to a man, the first, second and third football teams of Little Rock High School scored a one-sided victory over the Van Buren High School Pointers Friday night at Kavanagh Field. The score was 73 to 0.

its inhabitants was so much a byword in the ancient world that when men would point to the moral degradation of Rome, they were accustomed to say that "the Orientals had overflowed the Tiber."

It seems necessary to grasp so much in the setting if we would understand the place that Antioch occupied in Paul's religious life and missionary journeys. This capital of licentious living became, also, the new capital of a world movement of vitalizing power. Here in Antioch distinctive conquests of the Christian faith were begun as certain Greeks or Gentiles responded to Christian teaching. The report of this came to the Church at Jerusalem and Barnabas was sent as a messenger and counselor to encourage those who had accepted the new faith.

We do not know a great deal concerning Barnabas, but what we do know marks him as a man of distinctive and very noble character. The record here is that "he was a good man, full of the Holy Spirit and of faith." He had proven that by a devotion in which he had consecrated all his wealth and property to the common good of the Christian Church.

Barnabas was among the first, courageously to accept Paul when the Christians at Jerusalem naturally feared and distrusted this man whom they had known as chief among their foes. But Barnabas had vouched for the reality of his change of heart; and now Barnabas goes in quest of Paul, and finding him at Tarsus, brings him to Antioch.

The Christians in Antioch, hearing of the distinct contribution of Christians in Jerusalem, contributed financially to their relief, sending their gifts through Barnabas and Paul, who went to Jerusalem. The men returned shortly to Antioch ready to begin their first notable missionary journey, in which we shall find them well launched in the next lesson.

## STATE MONOPOLY

(Continued from Page One)

powers of this new organization are outlined in some detail, so that the idea behind the plan may be completely understood.

The primary task of the Authority would be the organization of a chain of its own retail stores for the sale by package only of the heavier alcoholic beverages. These stores should be so located as to meet normal demands without violating the desires of individual sections of the state to have no such stores in their localities.

At the present time, we believe, it is neither desirable nor necessary for the state to assume similar management of the manufacturing side of the trade. Virtually all the individual and retail sales of the liquor traffic arise from an inadequately regulated and overstimulated retail sale. The supplies that the Authority needs in its stores it can readily purchase direct from the manufacturers.

From an administrative standpoint, also, manufacturing is complicated and requires capital and skill, while retail distribution is, in comparison, simple. It would be necessary, however, for the authority to place under regulation all manufacturing and all transportation so far as is legally permissible, and to require a complete record of production and shipments. The Authority would also be the official agency for gathering facts and making studies bearing on the liquor problem, on its own administration, and related matters.

In order that the functions to be performed by the Authority may be definite, it is suggested that they should be specifically enumerated in the laws, and that appropriate rights and powers be conferred.

On the basis of experience elsewhere the following powers would be necessary for the discharge of the Authority's responsibilities:

1. The exclusive right within a state to sell or control the sale of all alcoholic beverages which contain spirits; all wines known as fortified wines, the alcoholic content of which exceeds that of the natural fermentation process; and all fermented products, such as beers and ciders, containing more than 3.2 per cent of alcohol by weight.
2. The right to lease or own and to operate retail shops for the sale of these beverages by the package to the ultimate consumer for off-premises consumption, except that the Authority should be bound to abide by the decision of communities which vote to exclude the retail sale of any or all alcoholic beverages under local option provisions.
3. The right to lease or acquire by purchase or condemnation and to operate warehouses, blending and processing plants, and other facilities as may be required.
4. The right to fix prices on its goods and to change them at will.
5. The right to establish in its discretion a system of personal identification of purchasers.
6. The right to establish regulations and to issue permits to owners of occupants of establishments to sell beer and naturally fermented wine or cider in sealed bottles or containers for off-premises consumption.
7. The right to establish regulations and to issue permits to hotels, restaurants, clubs, railway dining cars, and passenger boats, for the sale of beer, with or without meals, and for the sale of naturally fermented wine or cider to be consumed with meals on the premises.
8. The right to require private business concerns to certify the quantities of alcoholic beverages, manufactured in the state and the amounts shipped into, within, and from the state, regardless of the purposes for which used; this to be worked out in cooperation with the federal government.
9. The power to hold hearings on complaints about matters in dispute, including the power to subpoena witnesses and records and to make binding decisions.

That these are broad powers there is no denying. But powers as extensive have been conferred on similar bodies in jurisdictions where the democratic principle is as strongly entrenched as it is with us. In handling a problem as hazardous as the liquor trade, a broad grant of power, under ultimate legislative control, is the only effective method.

It is to be noted that no reference is made in this list of powers to the sale of heavier alcoholic beverages by the glass for on-premises consumption. Such sale is inevitably fraught with danger to the public interest. It is our hope that a general provision for the on-premises sale of beer and natural wine, together with sale of strong beverages by the package in the authority's shops, would be accepted as adequate in most jurisdictions by a preponderant majority of people.

## BOBCATS RUN OVER

## 11 Lunatics Break Out of Hospital

### Three Dangerous Criminals Loose, Says Little Rock Report

LITTLE ROCK.—Eleven patients, including three criminals, made a successful break for liberty from the criminally insane ward at the State Hospital Thursday night. Although several score men, including police and detectives, took up their trail a few minutes later, none had been captured early Friday morning.

Those who escaped and the counties from which they were received were: Carl Biggs, Sebastian county.

E. E. Ray, Lonoke county.

Fred Ross, Garland county.

George Cremens, Jefferson county.

Roy Osborne, Pike county.

Jesse D. Kirby, Lawrence county.

Cecil Wingfield, Union county.

George Traywick, Sevier county.

James Shelton, Logan county.

Parker Deaton, Arkansas county.

Dave Cantriss, Johnson county.

Of the 11 only three were considered dangerous. They are Biggs, Ray and Ross, who had been convicted on criminal charges. Dr. C. E. Arkebauer, superintendent, said the others were kept in the same ward with the three because of the crowded condition of the institution.
